## May 2019

### Chief Prevention Officer (MOL) Approved Refresher Training

Refresher training will reinforce key learning outcomes for workers and will also keep learners up-to-date on any legislative, regulatory or acts that have been enforced since they've completed their certifications.

It's that time of year again, we are heading into the 3-year expiration date of workers who received Working at Heights Training and Joint Health and Safety Committee Certification in 2016. **Make sure to check your records and wallet cards to see if you are still in compliance. If your due to renew, Northern Safety Solutions is an Approved Provider for Working at Heights Refresher Training and Joint Health and Safety Committee Refresher Certification.**

**JHSC Certification Refresher Training** is not only for those certified under the current standards. Anyone certified under the 1996 Certification Standards may also take refresher training to update their knowledge.

The certified member will not lose their "Grandfathered Status" with the Ministry of Labour by completing the JHSC Refresher Certification.

#### What happens if I do not take Refresher Training within three years?

If you do not take a Refresher Training program within three years of completing Part Two or a previous Refresher course, your certification may be revoked by the CPO. If your certification is revoked, you will have to re-take certification training (i.e. JHSC Part One and Part Two certification training courses) in order to be re-certified.

Northern Safety Solutions is recognized by the Chief Prevention Officer of the Ministry of Labour as an Approved Provider for the following courses:

- Working at Heights Training
- Working at Heights Refresher Training
- Joint Health and Safety Committee Certification Part One
- Joint Health and Safety Committee Certification Part Two
- Joint Health and Safety Committee Refresher Certification

#### May 6<sup>th</sup> – 10<sup>th</sup>, 2019 is Falls Awareness Week

During this week, the Ministry of Labour are encouraging all workplaces to stop work for 15-30 minutes to have a safety talk about fall hazards specific to their work environment

*Northern Safety Solutions is pleased to welcome **Commercial Transport Sudbury and Commercial Transport Timmins** to the Workplace Management Systems Program*
