

Qualitative Fit Testing Available:

Northern Safety Solutions would like to announce that they are offering the Qualitative Fit Testing for your mask and respirator fitting needs. We complete fit testing on all types of masks from N95, ½ face respirators and full-face respirators.

There is an increase in the awareness to use a face mask or respirator in light of the COVID-19 Pandemic. There is confusion on whether we should wear a face mask or respirator as well as which one requires a fit test.

NSS is here for you, providing fit testing for the masks and respirators to make sure that the wearer is using the appropriate model and size of respirator for the best fit and protection.

Returning to Work During COVID-19

With many businesses re-opening throughout Ontario, both employers and workers have a responsibility in keeping our workplaces safe during this transition. All workplaces in Ontario are mandated to take precautionary measures to prevent the spread of COVID-19. While many of these measures are a legal requirement, others are at the discretion of the employer.

Employees	Employers
○ Keep your hands clean	○ Communicate precautions being taken
○ Keep your environment clean	○ Limit number of customers inside business
○ Use PPE as required	○ Hand sanitizing stations
○ Practice physical distancing 2 metres apart	○ Mandatory PPE requirements for workers
○ Stay home if you're sick	○ Post signs asking ill customers to stay home
○	○ Adjust policies and procedures accordingly
○	○ Cancel or postpone all non-essential meetings and travel

Ask for help if you feel overwhelmed, you are not alone.

If you need additional support, call your primary health provider, a registered psychologist or other mental health provider in your community.
