COVID-19 – Second Wave

Northern Safety Solutions understands we are all experiencing some different times this year due to COVID-19. With recent developments and the Provincial Governments' decision to return various parts of the Province back to modified stage 2 protocols, we want to ensure that our local businesses are prepared to deal with the second wave of this pandemic. Northern Safety Solutions is here to provide all your health and safety training as well as develop any policies and procedures your business may require in order to meet or exceed the Provincial regulations currently in place including COVID-19 protocols for your business.

Workplace and Home Assessments

Our health and safety consultants can assess your workplace for compliance with the COVID-19 protocols as set out by Public Health and the Governing bodies. As the COVID-19 pandemic moves into the sixth month, home offices are no longer a temporary solution but a long-term reality for some workplaces. NSS recommends that workplaces conduct at home ergonomic work station assessments to ensure that workers are set up correctly to minimize worker injuries. NSS can conduct these for you with a report of their findings and recommendations.

Distance Learning

We offer a variety of training courses via distance learning which allows workers to participate in any training required all the while remaining at the workplace or from home. NSS has been approved by the CPO for JHSC Refresher training vis distance learning.

COVID-19 Pandemic Requirements

NSS can assist you with the mandated requirements for workplaces regarding the COVID-19 Pandemic such as:

- COVID-19 Protocol
- COVID-19 Program
- COVID-19 Training
- Fit Testing - Face Masks and Respirators
- PPE Training

The Ministry of Labour is set to hire an additional 98 inspectors for the province which will increase the current amount by 24% bringing the total number of inspectors in Ontario to 507. The primary function of these inspectors will be to inspect, investigate and enforce the current COVID-19 government restrictions.

Employment Standards Act – Version 9 is now available and must be posted within the workplace.
