Distance Learning Training

Northern Safety Solutions Inc. has offered distance learning training for several years. Our list of distance learning training courses includes the following CPO Approved Provider Training Courses:

- JHSC Certification Training Part One Training
- JHSC Certification Training Part Two Training
- JHSC Certification Training Refresher Training

Along with some of our most popular distance learning training sessions, including:

- Supervisor Competency Training
- Confined Space Entry Awareness Training
- Personal Protection Equipment Training

Our clients have voiced the benefit and positive experience of their workers participating in our virtual classroom training sessions; not to mention the cost savings for those companies and organizations that are now able to participate across Northern and Southern Ontario. Our distance learning participants have provided us with rave reviews on our distance learning training sessions and we sincerely thank them for that.

NSS strives to transform the virtual experience to a real classroom training experience. NSS utilizes the latest technology; including the ZOOM platform, as well as our Workplace Management System as a proxy for our testing, elevating our distance learning to exceed the Chief Prevention Office requirements for distance learning.

If your company or organization has not taken the opportunity to experience NSS' distance learning training, please do so, you will not be disappointed!

Northern Safety Solutions continues to offer the classroom training option for those who prefer the classroom setting.

Our newest classroom training being offered is First Aid Training. If you are familiar with our training, you expect our First Aid Training to be the most interactive, interesting, realistic, and informative First Aid Training offered across Ontario. Our participants have confirmed that NSS has not disappointed them and have provided them with a quality training experience.

Contact our Office or check out our website for more information on all of our classroom and distance learning training sessions.
