Joint Health and Safety Committee Refresher Certification

Your Joint Health and Safety Committee (JHSC) members play an important role in keeping your workplace compliant. Taking the JHSC Refresher training course via Distance Learning saves time, is cost effective, and makes it more convenient for members to sharpen their skills to carry out their responsibilities as a member of your Joint Health and Safety Committee.

CPO-approved JHSC Refresher Certification Training is required every three years to maintain certification.

Our JHSC Refresher Certification Distance Learning Training Session is a one-day training course facilitated by a live instructor in our virtual classroom.

- Participants learn about the latest changes and updates in regulations and best practice, helping them to perform their duties and responsibilities more effectively.
- Participants learn from other JHSC members through discussion and group activities.

The instructor leads learners through discussions and exercises and provides ongoing feedback and support throughout the live session. These exercises and discussions provide a check-in to ensure learners understand the content.

Northern Safety Solutions utilizes the latest technology with the ZOOM Platform to transform the virtual experience into a real classroom training experience. Our clients have voiced the benefits and positive experiences from their workers participating in our virtual classroom training.

Who is reviewing your Workplace Health and Safety Policies?

Effective health and safety policies are living breathing documents that are reviewed annually to ensure that they are current and up to date with legislation and company practices. Joint Health and Safety Committees or Health and Safety Representatives can assist Senior Management with this task. They can also be reviewed by a third party with expertise in health and safety, such as Northern Safety Solutions.

Northern Safety Solutions offers Workplace Safety Compliance Audits of your Health and Safety Policies, complete with a report of recommendations for compliance.

Please contact our office for more information.
