WHAT WE DON'T DO

Northern Safety Solutions has voiced for over 17 years the services and products that we provide our valued clients and workers across Ontario. NSS is one of the most trusted health and safety providers due to what we **DO** for our clients.

Northern Safety Solutions wants to remind you of what we **DON'T DO!**

- We **DON'T** send our incoming calls to an automated answering system. If you call our office during business hours you will be greeted with a friendly voice. NSS has brought our customer experience to the next level with more client interaction through phone calls and onsite visits.
- We **DON'T** charge workers or companies when they call our office with a question or looking for advice. Our training does not stop after the training session, we look forward to your calls. We are always going to be there to assist you Every Step of the Way!
- We **DON'T** provide boring, meaningless training. Our training sessions are facilitated by experienced certified trainers that provide interactive, informative and comprehensive training sessions.
- We **DON'T** cancel public training sessions due to low enrollment. If your company has taken the time to enroll someone in our public training session, we will put on the training session.

Companies will seldom say what they **DON'T DO** for their client or customers, but Northern Safety Solutions is proud of what we **DON'T DO!** Our continued mission is to be the most trusted health and safety provider by going above and beyond for our clients.

Our question to you is ***"What can we do for you?"***

MLITSD Initiatives

The annual spring initiative for The Ministry of Labour, Immigration, Training and Skills Development remains the same ensuring that young and new workers have the training and skills to safely perform workplace tasks. Northern Safety Solutions can assist you with training and onboarding of your young and new workers.

Call our office for more information!

Call to book your training today!
